BOARD OF DIRECTORS REPORTS

Your Board of Directors met Sunday, May 17th. All directors were present (which is pretty darn good).

Doc Brodie reported that delinquent assessments are coming in gradually, which is gratifying. More payments are necessary to continue our operation. Please, all members, pay up, so Doc can go on his vacation.

Henry Gardner is your new chairman of the Conservation and Lake Use Committee, Bob Wagner is Chairman of the Water Safety group.

One of our new lake residents is already on a committee, and will supervise the placing of bleach bottle buoys in the Lake. He is Loren Comstock.

Volunteers, including the ski kids, are asked to help reset the ski dock.

Thanks to all who donated the bleach bottles. We have enough now. Let your clothes get yellow the rest of summer and fall, and boy, next winter, get with the bleach again, we'll need bottles again for next year.

There was a report of a fairly large group of Girl Scouts, or Brownies at the beach early in May. The Lake Use Committee was not contacted for clearance at the beach. This is a must. No one has enough badges for a group that size. Would you care to identify the group and the sponsors by calling the proper committee?? We would like to know who you are.

Some boats are on the lake without numbers. Put your lot number on your boats. That's it, folks.

Ray Heinzen

ACROSS THE FENCE

Always had the idea that May was a quiet month with nothing much doing. Sure now, and didn't I find out I was barking up the wrong tree? Topping the list of social events this month is the most important night of all - GRADUATION.

Wednesday evening, the 27th of May, is the first graduation to be held in the gym of the beautiful new Lawrence Central High School. Taking part in these exercises will be five young people from the Lake area; Susan Powers, Joann Hawley, Tim Guinan, Greg Spellman, and Mike Nickel. Then on June 3rd, Diane Klepfer will graduate from Washington High School, with plans for going on to Ball State in the fall. To all these teenagers may we offer our heartiest congratulations and wish you all the best that life can hold.

Birthday congratulations are in order for the little Misses; Beth Ann Godward, who will be two on June 7, and Barbara Jones, four on the 28th of May. Masters David Trittipio, four on May 26, and Rod Sanders, two on May 18. Also for Steve Irwin, celebrating his 15th May 27. **HAPPY BIRTHDAY TO YOU ALL.**

(cont. on page 2)

* * * * *

My sincerest "Thank You" goes out to everyone who donated their time and contributions at the time of Elza's death. I cannot express enough how much our family and I appreciated these wonderful neighbors.

Esther Robertson

It's nice to be able to combine business with pleasure and play a round of golf during the work day. That's exactly what the Scobies and Armstrong did. Seems during a conversation at the Club Sunday evening Wally and Ken decided to be down around French Lick Mon. and Tues. and wouldn't you know it, Lois and Sheila had to go along too. Just teasing you, friends. I am sure you all had a grand time.

Another family taking a trip were the Allens. They and Marsha went to visit Joe, a student at Bob Jones Univ. in South Carolina. Be seeing you ACROSS THE FENCE.

Maureen

"LOOK, BUT DON'T TOUCH"
"WELCOME"

Sunday, June 14th, the Veteran Motor Car Club of Indiana will have their old cars on display at Mr. French' parking lot. All Lake members are invited to see the cars from noon until 5 P.M.

We ask all people to look, but don't touch, and please keep the children from climbing on cars.

These cars are the pride and joy of their owners, and took many months of labor, and hard earned dollars to restore. So - please, Look, But Don't Touch, and you are welcome. Confucius say "Those who keep hands in pocket are invited again."

Ray M. Heinzen

"BEACH PARTY"

Remember to decorate your boat for the Regatta -- Bring your own hot-dogs, etc.

SUNDAY JUNE 7 - 2:00 P.M.

THE SMOKE SIGNAL - published monthly by members of the Indian Lake Improvement Association Women's Committee.

PAT'S ALMANAC

Howdy, everyone. A beautiful day, and many more to come. A cool breeze and the floral spice gives a perfect air of country life. However, I could write three pages on our mosquito problem here. My kids are now lumpy, bumpy, and knot headed. They say everything was put here for a purpose, but if you find one for mosquitoes, let me know.

Hope to see you all at the Citizen Band Radio Jamboree, May 31st, 8 A.M. til 5 P.M. Put your name in for a \$2,500 radio shack, carpeting lights, beam, and radio are a part of the furnishings to be given away as a doorprize. Prizes worth \$25 will be given away every hour. The exhibits are free and will be held at the Marion County Fair Grounds. Citizen Band equipment as well as other varied interests will be on display. Entertainment all day and food should end a big race weekend. People from all over the US are attending, so come and meet the friendly people of other communities and let's introduce ours. See you there.

We have so many children around our Lake now, please be careful, that we may maintain our record of no serious accidents again this year. Don't let small children go to the beach alone. Last year was quite a responsibility for mothers and guards who were at the beach to watch your children too. Even though they are your responsibility, we all feel badly when accidents happen that could have been stopped.

The LADIES TEA will be held again Wednesday, June 17 at 7:30 P.M. at Dorothy Klepfer's home. Come see some of your neighbors again and meet the new ones.

Don't forget your Western costume for the July picnic. Hey, ED, get your Marshall's badge ready. RAY, get your pen ready to report the big doings; and everybody else, practice your square dancing.

YOU ALL COME!

Pat Sanders
