THE INDIAN LAKE

SMOKE SIGNAL

FELLOW INDIAN LAKE RESIDENTS:

There seems to be a great amount of confusion about the Northeast Security identification patches. The round patches should be placed on the outside of your car's rear window in the lower middle. There is really no reason to post the I.D. patches on the mail box as Northeast Security is aware of our membership. It is extremely important that all members place these patches on their automobiles! If you need extra patches I have several dozen extras available.

The last Board meeting was spent mainly dealing with the upcoming Lawrence Sewer project. In that the main sewer line is going through our lake just off the south bank, we are a vital cog in the project. In return for our sewer easement, Lawrence is proposing to do the following: construct a silt trap on the east end of the lake, restock the lake with fish, haul away any silt removed, certify that no damage will be done to the dam, and give us approximately \$4,000 in cash. The committee and attorneys of your Board are presently reviewing these proposals and will act on them at our May 21, 1978, meeting (or a special meeting if necessary).

We as an association are very fortunate to have our area at last served by sewers because so many of our members badly need them.

We regret to announce that Tim Hoover has resigned from our Board. Tim has contributed a great deal to our association. His replacement will be voted on at the next meeting.

The last month has seen much activity around the lake. Bill Justice (and Dave Upton) have got the basketball goal and swing sets repaired. Tom Lyons and Bill Farrell have made significant progress on the north and south beaches, respectively. Summer is just around the corner.

The next meeting of your Board will be held at 12:30 on May 21, 1978, at the French Indian Lake home. Again, everyone is welcome to these meetings.

George and Irene Workman wish to thank everyone who lent a hand during George's illness. They truly appreciate all the cards, the grocerie pick-ups, snow shoveling and everything eles people did to help out in their time of trouble. George is feeling much better now and returned to work Monday. Again many thanks for being good neighbors.

Did you miss the beach clean-up? That's not all you missed, a great day in the sun shine and good physical exersise, roasting hotdogs and marshmallows over a big bon-fire, and the company of some very fine people. I even came away with a nice tan. We managed to spread four truckloads of sand, tear out the old dock, put up the new tables, and three new grills. Also the other dock got painted and alot of debrie cleaned up. And that was just the North beach, the south beach got sand spread and debrie cleaned up. There is still alot of work to be done and the next clean up date is May 20th. I hope to see you this time. Very few people showed up to help work Sat. and it seems to me if you want to use the beach over the summer, the least you could do would be help get it ready for the warm summer days ahead of us. Rember this year is the last year we will be able to use the beach until the sewers are finished. Please come and help us on Sat. May 20th, 9 a.m. until finished. Very Special thanks to everyone whodid come down to the beaches last Sat. Your hard work is very much appreciated by those of us who use the beach regularly.
